

Triumphs and dreams big and small - Vidya Sagar celebrates them all

Vidya Sagar, a rights based organization, is triumphantly marching ahead completing three decades of work in the areas of rehabilitation and training. This has been possible largely because of the support of the community and people like you. There are many more dreams yet to be fulfilled and we will continue to strive together.

Today, the disability movement is in the human rights model and India has signed the UNCRPD. We are aware that every individual with disability dreams of the rightful access to education, employment, leisure, family life and social life.

Vidya Sagar has always proactively worked towards meeting the needs of the evolving disability movement through advocacy and innovative awareness programs. VaccesS is one such program designed to create awareness on access. The event has two parts; an awareness run and expo. Access includes attitudinal access and the awareness run on the third of April is aimed at creating and building a positive attitude. The objective of expo to be held on the second and third of April is to connect the people who are creating accessible designs/equipment/assistive devices etc. and the end users. Users of course include persons with disabilities, disabled peoples organizations, NGOS and schools for persons with disabilities. But more importantly the various sections of the community like mainstream education institutions, corporate, builders, architects, government officials and so on.

Rotary International District 3230 is joining hands with Vidya Sagar in the disability movement and march along to organise "VaccesS".

Celebrating 30 years of Diversity

About Rotary International: Rotary is an international service organization whose stated human rights purpose is to bring together business and professional leaders in order to provide humanitarian services, encourage high ethical standards in all vocations, and to advance goodwill and peace around the world. It is a secular organization open to all people regardless of race, color, creed, religion, gender, or political preference. There are 34,282 member clubs worldwide. 1.2 million individuals called Rotarians have joined these clubs.

In this event we intend to allow the participants experience the “enhanced ability” through various activities, games and fun. The exhibition will showcase products and equipment of day to day utility with accessibility features, designed and promoted by different companies, assistive devices and information materials on various aspects of access.

Physical access, access to communication and information and above all attitudinal access are the first steps to making inclusion of persons with disability a reality. We invite you to join us in this endeavor of creating a more enabling environment by participating and partnering with us.

Awareness Run on 3rd April – Supported by Dream Runners

Dream Runners are a group of people who came together because of a passion for running. They have been promoting running for a healthy living and conduct the Dream Runners Half Marathon that is one of the first events in the Indian Marathon Calendar. Every year there is a social cause associated with DRHM and runners from all over the country participate. Registrations will be open soon for Vaccess Awareness Run
